INTRO

Web developer with solid skills in **HTML5**, **CSS3**, and **JavaScript**, specializing in the creation of modern, responsive, and high-performance interfaces. Experience in frontend development with **React** and **Next.js**, as well as backend skills with **Node.js** and database management using **MySQL**. Good knowledge of **Angular** and **Python**, with a particular interest in the integration of **AI solutions** and the development of intelligent systems. Currently pursuing further training as an **AI Prompt Engineer**, with a focus on language model optimization, automation, and the integration of **AI tools into web** applications. Accustomed to working on advanced technical configurations, debugging, and collaborating with engineering teams to release new features and continuous improvements. Strong problem-solving approach, attention to performance, and a clear predisposition for continuous learning.

SCHOOL EDUCATION

Certificate in BIS (Business Information Systems) - **89**

ITET MAGGIOLINI - Parabiago (MI)

09/2017 - 07/2022

ECDL (European Computer Driving Licence)

ITET MAGGIOLINI - Parabiago (MI)

10/2017 - 06/2019

WORK EXPERIENCE

Technical Help Desk

Ennova S.p.A. - Gerenzano (VA)

09/2022 - 06/2024

- Technical support and training for Level 2/3 operators;
- Advanced configuration of systems, complex devices, and home automation solutions;
- Weekly calls with the engineering department to resolve bugs and deliver new releases.

Beta Tester

MADIC ITALIA S.r.l. - Cardano al Campo (VA)

10/2024 - Present

- I work as an IT Beta Tester specializing in POS (Point of Sale) services, where I test new software releases, firmware updates, and system integrations before deployment.
- I validate payment workflows including card transactions, contactless payments, refunds, and backend integrations, ensuring stability, security, and PCI-DSS compliance.
- I identify bugs, performance issues, and vulnerabilities by executing structured test plans, analyzing logs, and collaborating with developers to deliver reliable and secure payment solutions.
